Inramentados like Senator Carmack keep the United States Senate from relaxing into a lot of "grave and reverend seniors."

Perhaps Roosevelt sent for the expert Monsieur Philippe Bunnau Varilla to fix up that little treaty of peace between Platt and Odell.

President Cleveland's positive determination not to be a candidate for the Presidential nomination, relieves the tension. Mr. Bryan, "your next."

One of our exchanges remarks that "he fell into the hands of a pretty woman." Gee! that fellow didn't have any more sense than a fly ball on a baseball diamond.

Who ever it was that fixed up that Panama disturbance might be induced by the Democrats to get up trouble in the Republican department during the campaign next year.

President Roosevelt didn't do a thing to Odell and Platt, for they came out of the White House with white flags flying. Roosevelt must have divided the "pie" to the satisfaction of all hands.

Judging from the statement that so many players got put out of business in the Carolina-Virginia foot ball game on Thanksgiving day at Richmond, "pig skin" was not the only kind of skin lying around.

A fine success of cattle raising for the Cuban market has been made in the Florida lowlands. Eastern North Carolina has similar lands and it is about time everybody was adopting Dr. Winston's suggestion made in an address in Wilmington that cattle raising is one of the resources open to development in this section of North Carolina.

Gen. Wood after laying a few more hundreds of the Moros under the muck, cables that he is going on up to the mountains where there are 2,000 more insurgents to be dealt with, and that it will take four or five more days to clear them out. Going after that Moro meat may make that committee on military affairs at Washington forget what it was that Rathbone said about Gen. Wood.

TERRY MURDER TRIAL

Important Case That Will be Heard in the Superior Court Here This Week.

MAY WANT CONTINUANCE.

Illness of Ex-Governor Russell Will be Argued—Attorneys Arriving for Trial. Special Venire May be Summoned Monday—The Jury.

New Hanover Superior Court for the trial of criminal cases will convene to-morrow morning at 10 o'clock and continue in session one week, Judge Geo. H. Brown, Jr., of Washington, N. C., presiding. The term will be a very important one. There are 45 cases on the docket. The one of all absorbing interest, however, is that in which S. Hill Terry, is charged with the murder of his son-in-law, George Tate Bland, at the latter's home on North Fourth street about two months ago. The case was called at the last term; a motion for continuance was made and denied, and later granted in the nature of a compromise between counsel for the defendant who fought hard for a change of venue, and counsel for the prosecution, who strenuously resisted the removal. The case was set for the first day of the term, beginning to-morrow, and it is not believed that Judge Brown will allow any further delay.

Solicitor Duffy and his law partner, E. M. Koonce, Esq., arrived yesterday afternoon to get the "lay of the land" for the trial and announce that they are ready for the State. It is believed that counsel for Terry will ask for a further continuance owing to the sickness of ex-Governor D. L. Russell, one of the leading attorneys for the defendant, who is still quite ill with fever at his country home in Brunswick county. Dr. Frank H. Russell, Governor Russell's physician, said yesterday afternoon that without a doubt his patient would be unable to attend the trial. The other counsel for Terry are Messrs. Bellamy & Bellamy, Jno. H. Gore, Jr., Esq., Brooke G. Empie, Esq. and W. P. Gafford, Esq. It will be contended by the State that the defence is ably represented by counsel, even with absence of the ex-Governor and that the trial should proceed.

Solicitor Duffy and Mr. Koonce will be assisted in the prosecution by Messrs. Lewis & Schulken, of Whiteville, who will arrive to-day, J. F. Sellars and Woodus Kellum, Esqs., the last named having only recently been retained.

A photograph of the scene of the shooting was taken yesterday afternoon and will be exhibited in court in explanation of the testimony. About fifty witnesses have been subpœnaed in the case and the trial will likely continue through the entire week. Should the effort for further continuance fail, Judge Brown will perhaps order a special venire of two hundred or more on Monday, and the trial will likely begin on Wednesday morning. Monday and Tuesday will likely be consumed in clearing the docket of other cases.

The regular jury summoned for the term is as follows: J. D. Woody, Wm. H. Merritt, J. H. Swinson, F. H. Fechtig, W. B. McClellan, L. Gay, J. M. Hewitt, Edgar L. Hinton, C. E Taylor, Jr., W. McD. Evans, J. M. Sherman, Charles C. Knox, A. L. Dosher, Wm. T. Shepard, James Allen, John M. Williams, Robert Robbins, J. C. Gore, D. M. Beardsley, Charles D. Foard, J. R. Canady, Colon E. Kerr, W. B. Berry, Daniel E. Kerr, John H. Bornemann, Wash W. King; W. G. T. Keen, Daniel H. Penton, J. E. Hatch, L. W. Baggett, G. W. Huggins, W. C. Crow, James G. Smith, Samuel J. Davis, R. W. Hicks and W. H Bernard.

THE TEACHERS IN SESSION.

Regular Monthly Meeting of New Hanover Association Yesterday—Interesting Addresses and Other Exercises.

The New Hanover County Teachers' Association held a very interesting and profitable regular monthly meeting yesterday morning, beginning at 10:30 o'clock. In spite of the intensely cold weather the attendance was good and the programme of exercises was very complete. Superintendent Catlett, president of the Association, was in the chair and Mr. J. P. Herring, was at his desk as secretary.

Perhaps the leading feature of the session was a fine address by Prof. R. D. W. Connor, principal of the Wilmington High School, upon the "Life and Work of Calvin S. Wiley," which was based upon his recent very able paper upon the same subject, read at the recent meeting of county superintendents in Raleigh.

Miss Margaret Gibson, who was present as a representative of the North Carolina Sorosis, made an interesting address about the art department which the Sorosis has established for the benefit of the public schools. Mrs. M. L. McLeod, principal of the Hemenway school, also made a pleasant talk.

Just before the close of the meeting, Prof. Catlett made an interesting address from impressions gained at the recent superintendents' meeting in Raleigh. He also called attention to the fact that December 18th is "Carolina Day" in the public schools of the State, and he requested all the teachers to observe appropriate exercises in honor of that occasion. The subject for study is the "Cape Fear Section," and programmes will be distributed from the State Superintendent's office in a very short time.

It was much regretted by the teachers yesterday that owing to the absence from the city of Miss Jennie Wood, she could not be present and read an excellent paper which she had prepared on "North Carolina History."

The Association's December meeting will be held on the 19th inst., instead of the last Saturday in the month.

FIRED ON KEEPER OF GROUNDS.

Negro Lad Shot at Mr. D. E. Costin, But Wounded a Colored Boy—Arrested.

While being driven off the premises of the Cape Fear Golf Club, beyond Delgado, upon which he was trespassing by hunting yesterday afternoon about 3 o'clock, Henry Brown, a negro lad of some 15 or 16 years of age, fired upon Mr. D. E. Costin, keeper of the grounds, and would have killed him had not the load of shot from the gun flew wide of the young negro's aim. As it was, a few of the shot meant for Mr. Costin took effect in the head of V. Wheeler, a young negro, 12 or 13 years of age, who was employed as a caddie by some of the players on the links.

Mr. Costin pursued Brown and took the gun from him, but the boy made good his escape. Mr. Costin at once came to the city, procured a warrant from Justice Fowler and placed it in the hands of Constable Savage who started at once for the golf links and found the boy at Tenth and Market streets. He was made a prisoner and brought to jail where he will remain until he can be given preliminary trial to-morrow. The wounded negro boy was sent to the hospital, but his injuries were only slight and he was allowed to return home.

Columbus Telephone Co.

The stockholders of the Columbus Telephone Company, who were represented by Jno. H. Gore, Jr., Esq. when he bid in the property at public auction some time ago, met yesterday morning in the office of Russell & Gore for the purpose of reorganization. Mr. J. W. Harrelson, of Clarendon, N. C., presided and Mr. Louis Goodman, of this city, acted as secretary. The following Board of Directors was chosen: Mr. E. A. Perry, of Chadbourn; Dr. D. I. Watson, of Southport, and Messrs. W. B. Cooper, B. F. Keith and S. F. Craig, of this city. The directors will meet Wednesday and elect all the officers of the new company.

Coldest of the Season.

Not since the last day of the month in the year 1872 has the temperature been lower on a November day in Wilmington than on yesterday—21 degrees. Charlotte had a temperature of 20, Charleston 26, Norfolk 22, Raleigh 18 and Richmond 22. Lettuce and early vegetable growers say it will be a day or two before they can estimate the damage, if any, to their crops.

Opened Menhaden Season.

The steamer "Atlantic," of the Atlantic Fisheries Co., at Old Brunswick, arrived from the North yesterday in charge of Capt. J. F. Bussels. While on the way down the steamer ran into a school of menhaden off Hatteras and caught 200,000 of them. The Atlantic Fisheries began operation for the season Friday.

Monday Night's Musicale.

The musicale Monday night at the Y. M. C. A. will be a superb one and will be given under the sole direction of Mrs. Annie deR. Harris. That in itself is a sufficient guarantee of it high excellence. The programme will consist of all rare numbers, including several piano selections by Miss Rosa Aubrey, of Cartersville, Ga.

— Rev. J. D. Bowen will preach at the First Baptist church to-day at 11 A. M. and 7:30 P. M.

THE N. C. CONFERENCE

Morning, Afternoon and Night Sessions Were Held at Goldsboro Yesterday.

AT HENDERSON NEXT YEAR.

Many Reports Heard and Questions Called. Rumor That Grace Church Will Get Prominent Young Member of Conference—Proceedings

[*Special Star Correspondence.*]

GOLDSBORO, N. C., Nov. 28.—The North Carolina Conference rounded out a busy day's work here with both afternoon and night sessions to-day. At 8:30 o'clock the Conference was called to order by Rev. Dr. E. A. Yates, of Durham. Devotional exercises were conducted by Rev. N. E. Coltrane.

Rev. F. L. Church presented a fine report on Temperance and the same was adopted.

Rev. D. H. Black presented the report on Bible Cause and it was discussed ably by Dr. Betts, Dr. Kilgo and Rev. G. A. Oglesby.

Mr. W. B. Cooper, of Wilmington, presented the report of the Sunday School Board and it was adopted.

Henderson, N. C., was decided upon as the next place of meeting. Another invitation was extended by Rev. R. C. Beaman, of Trinity Church, Durham, but the Conference decided to to go to Henderson.

A committee of three from the Western North Carolina Conference asked that the North Carolina Conference appoint a similar committee to confer with the trustees of Trinity College relative to the matter of appointing a separate board of trustees for Old Trinity College. The matter was laid on the table.

THE NIGHT SESSION.

At 7:30 o'clock to-night Conference met and the work of the Church Extension Board was discussed by Rev. D. H. Tuttle, of Kinston.

The appointments will not be announced by the Bishop before Monday and certainly not before Monday afternoon. There is a well defined rumor here that one of the prominent young members of Conference will be sent to Grace church of Wilmington to succeed Rev. J. N. Cole, whose four years' faithful service there has expired.

THE MORNING SESSION.

GOLDSBORO, N. C., Nov. 28.—The fourth day's session of conference was opened with Bishop Candler in the chair. Rev. M. T. Plyler, of Louisburg, conducted devotional services. The journal of yesterday's session was read and approved. Gen. Julian S. Carr, of the Durham district, was recognized as a lay delegate, as alternate, in place of J. W. Featherstone.

The name of J. A. Lee was called. He gave his report, his character was passed and his name was referred to the committee on conference relationship for the superannuated relationship.

Question 7 was called; the name of J. W. Bradley was called, gave his report and he was advanced to the class of fourth year.

Question 12: "What traveling preachers are elected Elders?" and the names of Preston Dewitt Woodall, Rufus Rhodes Grant, James T. Stanford, William T. Jones and F. E. Dixon remain in the class of fourth years.

Edwin R. Welsh, H. M. North, Joseph Francis Bivins, Jesse Lee Cunningham and James A. Daily passed the examination of character, and having been approved, were elected to elders.

Question 10 was called, viz: "What local preachers are elected deacons?" E. Marion Hoyle, Leslie B. Howard, Wm. B. Green, of Durham district; John William Bryan, of Newbern district; Robert B. Clark, of Warrenton district, having been recommended by their respective district conferences, were elected to Deacon's orders.

Rev. J. W. Jenkins announced the gift of $1,000 from George M. Lindsay of Snow Hill, N. C., to the Orphanage.

Rev. A. F. Wilkins, D. D., agent to raise a large fund to provide aid for the worn out preachers of the M. E. Church South, addressed the conference in behalf of his board and raised in cash and subscription about $6,000.

Question 1 was recalled, viz: "Who are Admitted on Trial?" L. E. Sawyer, of Newbern district, was admitted on trial.

Mrs. Lucy H. Robertson, president of Greensboro Female College, was introduced and spoke in the interest of the college.

Dr. T. H. Law, the agent of the American Bible Society, spoke to the conference in behalf of the society.

Rev. L. S. Massey, in behalf of the Board of Education, presented and read the Board's report and it was adopted.

Rev. R. L. Davis presented the report on church property and it was adopted.

Question 20 was called, viz: "Are all the Preachers Blameless in their Life and Official Administration?" G. F. Smith, G. T. Adams, J. O. Guthrie, M. M. McTarland, G. B. Starling G. W. Fisher, N. E. Coltrane, N. L. Seabolt, J. H. Shore, M. T. Plyler, A. L. Armond, W. H. Puckett, A. McCullen, J. D. Pegram and J. W. Jenkins—Character passed and they made reports.

On motion of Dr. Dr. F.D. Swindell it was ordered that when Conference adjourned that it be to meet on Sunday at 3:30 o'clock to have memorial services. On motion of Presiding Elder W. S. Rone an afternoon session, beginning at 3:30 o'clock, was ordered.

Announcements for Sunday Services: Methodist—St. Paul, love feast at 9:30 o'clock, conducted by Revs. R. A. Willis, W. S. Rone; 11 A. M., Bishop Warren A. Candler; 8:30, Memorial service; 7:30 A. F. Watkins, D. D. St. John's—11 o'clock, Rev. E. C. Glenn; 7:30 J. H. Shore.

Baptist—First church, 11 A. M., J. A. Hornaday; 7:30 Dr. John C. Kilgo; Second church, 11 o'clock, N. E. Coltrane; 7:30 P. M., Rev. E. Pope.

— Mr. W. R. Walker, of Currie, N. C., is in the city on business.

A ROYAL ARTILLERY BAND.

Appearance Here Tuesday Evening of Tasca and Famous Organization of Italian Musicians—Sale of Seats.

One of the very finest musical offerings at the Academy of Music this or any other season will be the appearance here on Tuesday evening of Tasca and his peerless Italian band of more than 40 pieces. The sale of seats for this engagement extraordinary will begin to-morrow morning at 8 o'clock at Plummer's. By special arrangements there will be no advance in prices and a rush for seats is promised. Tasca appeared in Raleigh on Thanksgiving afternoon and evening and the *Times* of that city says:

TASCA, FAMOUS BANDMASTER.

"Tasca and his Royal Artillery Italian band, gave two performances here yesterday afternoon and night at the Monumental Theatre.

"It can be classed with the great bands of this country. The programme they rendered was a brilliant one in every particular, and was thoroughly enjoyed by all who heard it.

"This celebrated bandmaster showed the greatest skill in directing his men, who were under perfect control.

"It was too bad that they did not have a larger house, as such an organization is seldom seen here, and when the opportunity is presented it should be greeted by a packed house."

LOCAL MARKETS AND SHIPPING

News of a Day Along the Water Front, Visiting Tug in Port.

There were sales of spirits on the local market yesterday at 55½c. Cotton quotations were unchanged; receipts 2,257 bales against 1,531 same day last year.

Schooner "C. C. Lister," Capt. Moore, arrived yesterday from New York with cargo of salt for the D. L. Gore Co.

The four masted schooner "Robert H Stevenson," 1,053 tons, Capt. Higbee, arrived yesterday from New York and will receive cargo of ties from the Hall Tie & Lumber Co.

British schooner "City of Nassau," having completed discharging cargo of fruit at the Custom House wharf, passed up to the yards of J. A. Springer & Co. and is receiving cargo of shingles for the West Indies.

Schooner "Harry W. Haynes," which has been discharging cargo of stone at Fort Caswell for Roger Moore's Sons & Co., came up to the city yesterday and will receive cargo of lumber from the Cape Fear Lumber Co.

British steamer "Cairnstraith," previously reported as having arrived at Southport from Huelva with cargo of pyrites, proceeded up to the city yesterday afternoon, and will be towed up to Navassa by the tug "Navassa." Capt. J. H. Williams, this morning. Capt. Hunter, of the "Cairnstraith," is pleasantly remembered here as formerly master of the British steamer "Cairnmore."

The Savannah tug "Dauntless," Capt. Frank B. Avery, arrived in port yesterday for coal and slight repairs to machinery. She is towing from Savannah to New York the disabled schooner "Gracie D. Buchanan," 997 tons, Capt. Harrington, which put in at Savannah Nov. 11th, leaking and with her pumps out of order. She was originally bound from Fernandina, Fla., to New York, with cargo of lumber. The "Dauntless" left her tow off the bar at Southport and proceeded up to the city for the coal and repairs. She expects to proceed to-day.

Mabel Paige Injured.

The following special from Danville, Va., to the Charlotte *Observer* of yesterday will be read with interest by hundreds of friends of the popular actress in this city where her company will appear shortly after Christmas: "Mable Paige, an actress, who is at the Academy, this week, was shot in her arm last night by a blank load, between the acts. The charge of powder and the wad entered her left arm, and inflicted a painful wound. It was necessary to have the wound dressed before the curtain went up, though the delay was very short."

December Weather.

The following data relative to the weather in December, covering a period of 33 years, have been compiled from the records in the Wilmington bureau. The mean temperature was 48 degrees. The lowest during the 33 years was 10 degrees on Dec. 30th, 1880. The highest was 79 degrees on the 24th of the year previous. The greatest precipitation was 7.13 inches in 1877.

THE OIL EXCITEMENT.

Precautionary Measures to Prevent a Possible Fire Are Still in Force.

PETITION TO THE ALDERMEN.

Wharf Owners Ask That Standard Oil Drain to River be Closed—Company Footing Extra Expense Incurred on Account of Accident.

The excitement incident to the leak of one of the big tanks at the Standard Oil Company's plant on Friday and the consequent filling of the river and all the city docks with kerosene oil, greatly endangering life and property, had not subsided yesterday and people with places of business along the wharf freely expressed themselves in regard to the matter. The secretive policy of the Standard Oil Company concerning the accident was denounced in no uncertain terms by many, while others looked upon the matter as greatly exaggerated. The condition grew very little less alarming during the day, and in one or two instances flat pumps were used to rid the docks and wharves of the highly combustible liquid. The extra force of watchmen employed by the city was continued during the day, as were also those employed by the Atlantic Coast Line and Messrs. Alexander Sprunt & Son. Eighteen men employed by the city, upon the order of Mayor Pro Tem. Yopp night before last were paid by the Standard Oil Company yesterday, and Mayor Yopp informed officials of the company that 25 men would be employed at their expense until this afternoon or night.

People continued to skim the water for the petroleum product yesterday and large quantities of it were saved in buckets and barrels. The Standard Oil people gave out a statement yesterday afternoon that a measurement of the tank showed that only an escape of between 300 and 400 barrels had taken place, and that the large quantity being dipped from the river was principally water.

Mayor Springer telephoned this office last night from Goldsboro and expressed his purpose to return home immediately, but was told that the city authorities had the situation well in hand and there was no reason for his abandoning his work at the conference. He heard of the oil escape only yesterday afternoon at 5 o'clock. Mayor Pro Tem. Yopp has done all that was possible to safeguard the interest of property owners and he was warmly commended for it yesterday.

With reference to the remark in yesterday's STAR to the effect that Messrs. Alexander Sprunt & Son were indignant as to the policy of the Standard Oil Co. in regard to the accident, Mr. James Sprunt said last evening: "We have no personal feeling whatever. We only felt alarmed that we had not been informed of the occurence sooner so we might have taken all possible precaution against fire at our compresses before nightfall."

Such was the apprehension yesterday of the A. C. L. officials and of the the Champion Compress people that all cotton and other freight was removed from the open shed at the foot of Red Cross street and from the compress wooden wharves and wooden buildings into fire proof warehouses which are protected by automatic sprinklers, there being still underneath the wharves a thick coating of oil, which will probably remain there for some time to come.

The following petition was promulgated yesterday and will be presented to the Board of Aldermen at its next meeting:

"*To the Mayor and Board of Aldermen, City of Wilmington, N. C.*

"GREETING: The undersigned merchants and wharf owners of the port of Wilmington having observed with feeling of apprehension and alarm the recent flow into the Cape Fear river and docks of a large amount of petroleum oil through an accident at the plant of the Standard Oil Co., and having been informed than an open ditch or drain has been used to convey oil from their premises to the river, respectfully request that an immediate official investigation of this matter be ordered and that an ordinance be passed without delay prohibiting the drainage of oil or other inflammable material into the Cape Fear river within the limits of the city of Wilmington.

"[Signed] Wilmington Compress and Warehouse Co. Hilton Lumber Co. Cape Fear Lumber Co. Chadbourn Lumber Co., by James H. Chadbourn, president. Hall & Pearsall, Incorporated. Thos. D. Meares. The Worth Company. Champion Compress and Warehouse Co., by James Sprunt, president. Clarendon Water Works Co., by Wm. F. Robertson, superintendent. Clyde Steamship Co., by H. G. Smallbones, superintendent. J. A. Springer & Co. Navassa Guano Co., of Wilmington, by W. L. DeRosset, secretary and treasurer. The Coal, Cement & Supply Co. Robinson & King. Murchison & Co. D. L. Gore Company, by L. B. Rogers, vice president. D. L. Gore."

The Poultry Show.

Two weeks more and the Wilmington public will have an opportunity of seeing one of the largest poultry shows ever held in the State. Entries are beginning to come in from all over the South. They include entries of all breeds of poultry the world over. Pet stock will also be shown in abundance, making it a display of its kind rarely equalled. The Wilmington Association has gone to great expense to make the show the grandest in its history and will present a show that is deserving of a large patronage. The show will open at noon Monday, Dec. 14th, and continue one entire week. A special rate of one and one-third fare has been made for out-of-town people who wish to attend the exhibition.

NEGRO SLASHED A SYRIAN.

William Simon Cut by Bad Negro Near Water and Princess Streets.

William Simon, a half-witted young Syrian, who used to figure in the courts frequently, was badly slashed across the right thigh early last night by Virgil Brown, a half-drunken negro with whom he engaged in an altercation on Water street, between Market and Princess. Simon was sent to the hospital in the ambulance and the negro was arrested by Police Sergeant Burnett and sent up to the station in the patrol wagon. The Syrian's wound is not serious. The gash in his thigh is about 3 inches long and half an inch deep. Dr. Akerman at the hospital took three or four stitches in it and at last accounts Simon was doing very well.

WILLIAM H. BERNARD.

WILMINGTON, N. C.

SUNDAY MORNING, NOVEMBER 29.

DESTINY OF OUR NATION.

That the United States is on the eve of momentous times, there need be no prophet or seer to tell us about it. We have expanded tremendously, our progress and prosperity astounds the world and we do not properly realize it ourselves. Since we launched out on our imperial course and landed flat-footed into the midst of the "world powers," there has always been something doing. The fact is, we may as well observe also, that a people with our tremendous energy and powers will always be doing something. We do not want to live to see the day when decadence and decay begins, if it ever does, but all patriotic Americans believed too firmly in the destiny of their country and in the principle of their government to contemplate or believe that we will ever topple and crumble like the once great Roman empire. Yet Bishop Candler, who is holding the North Carolina Conference, M. E. Church, South, now sitting at Goldsboro, remarked in his Thanksgiving sermon on Thursday, that "no nation ever rose without hardship, and no nation ever fell without luxury." The Bishop, however, was optimistic, and, saying that the establishment of our nation was "no accident," he declared his patriotic faith by remarking that "God was careful about the extension and development of our nation because he wanted to make a better nation than any that existed before."

We are reminded here, however, that many nations favored of God have lost the Almighty's favor and have been scattered to the four ends of the earth. We have had our hardships and there are few that cannot say we are a luxurious, high-toned and extravagant people. Let us not hope that as in the case of Rome it will be, perhaps paraphrased more or less: "First, glory, then wealth, barbarism at last!" Events are occurring so rapidly that no one can predict what momentous situation the United States will be in from one month to another. Less than a month ago we were resting on one coarse, but suddenly, on the 3rd of November when Panama declared its independence of the United States of Colombia, we find our great nation plunged into an affair which has turned the eyes of the world upon us, which has attracted the attention of all civilization, and, strange to say, "there is no man's hand to stay us." Right ahead of us lies the construction of the great isthmian canal that is to cross Panama from the Atlantic to the Pacific and rend America in twain. This stupendous enterprise not only opens up prodigious advantages and opportunities to America, but the whole civilized world is concerned directly, and civilization will even make it to the advantage of Eastern nations who have not even dreampt of the thing or even heard the news of our nation's tremendous move forward in this world enterprise.

What of the future of our grand country? Some Europeans who stand in wonderment at the expansion of the United States, declare that our "career of forcible conquest" and striving for world supremacy means ultimately the overthrow of Democratic-Republican government and that the destiny is, empire at last. If nothing else, we can say that if "all the world's a stage," the United States is playing "many parts," and the eyes of the universe are fastened upon us in our turn. It is said that our "imperialism" means benevolence and a betterment of the world and that in our career of conquest we are not simply seeking whom we may destroy. In this connection, read what the St. Louis *Globe-Democrat* (a Republican paper with a curious hyphenated name) says:

Bacon said that the opinion of a foreign nation regarding any country would be likely to foreshadow the verdict of posterity. It is well, therefore, for the United States to know just what judgment the outside world is rendering on its conduct and destiny. Ever since the Spanish war of 1898 we have had an excellent chance to acquire the gift of seeing ourselves as others see us. The world has been passing judgment upon us with a breeziness and freedom which is interesting, though the verdict is not altogether flattering, except to the country's pride. But the average American believes that the imperial role marked out for this country by its foreign friends, as well as its foreign critics, will not be played. The United States has no desire for world supremacy except in enlightenment and beneficence. It has no mission to exercise political sway beyond the seas. The liberties of no people in the world are endangered by the growth in our influence and power. Japan, China and other nations have felt our influence in a benign way, the former by being resurrected and modernized two generations ago, and the latter by being saved from dismemberment after the march on Pekin by the allies in 1900. The career of forcible conquest which foreign observers are making out for this republic is very far from the aspirations or expectations of its people. History tells us of the 'peace of Rome'—the peace which the great empire during its days of power forced on the rest of the world. That part of the Roman empire's role, the 'peace of America,' stands a chance of being played on a larger stage and with greater resources by the United States."

May the good old Democratic Ægis keep its protecting wings over us and we will land safely in the course in which we are steering.

DIVERSIFY OUR MANUFACTURES

The STAR has time and again, along with most newspapers in the land, endeavored to impress upon Southern farmers that year in and year out the best policy in agriculture was to diversify their crops. Experience has shown that the man who sticks solely to cotton or tobacco, will sooner or later meet the adversity that sometimes comes from either overproduction or some other depressing causes of low prices. Time was when the South almost ruined itself in planting cotton, the result being that overproduction made such low prices that in some years the price which the staple brought on the market would not pay for the production of the crop. We have observed the same conditions as to tobacco, and it is not necessary to refer in this instance to the fact that whereas last year tobacco growers made money, the fact is that this year prices have been discouragingly low until very recently, when, for some reason or other, the prices of leaf tobacco have advanced. A diversity of crops will surely pay best in the long run, and here we will say that we are glad to see that the cotton growers are having their inning.

We say all this to refer now to the cotton manufacturing conditions in the South. Some how or other manufacturers of cotton goods have not been able to advance the price of their manufactured products in proportion to the practically high price of cotton. The consequence is the mills generally have either not paid expenses or have done a business that had little profit in it. We would infer, however, that overproduction is also the trouble with the manufacturer, judging from the fact that in the STAR yesterday morning was published a call for a meeting of Southern cotton manufacturer, to be held in Charlotte, December 8th, for the purpose of formulating plans to curtail production.

It has been said that the Southern people are more or less "one-ideaed," but that must not be inferred from the fact that sometimes we all follow up a good thing until we run it into the ground. We have had disasters from overproduction of cotton, from overproduction of tobacco, and now we are told that we are making more coarse cotton goods than there is a demand for. Perhaps the South has been content to confine herself too closely to the manufacture of the coarser lines of cotton fabrics. Why, therefore, do not our manufacturers learn something from the advantages which a diversity of manufactured cotton goods would bring them? We are going too straight forward into one line of manufacture and from the present situation it would appear that we have built enough mills to manufacture coarse grade cotton goods. We hope, therefore, that our capitalists and captains of industry will begin to diversify their manufactures and build future mills for the manufacture of the finer grades of goods. There are many branches of cotton manufacturers to which we have given no attention, and it is time for us now to investigate along these lines and not continue to build mills to add to the over-production of coarse goods. We might also diversify our manufactures otherwise and turn our attention to other industries than cotton mills.

Recently the London *Daily News* referred to "The American Cotton Industry," and the article shows that even the cotton manufacturers of the New England States, although they manufacture a diversity of high grade goods, have not essayed to make some of the fine fabrics that come from the English mills. The *News* speaks rather independently of American competition, but in discussing the matter the English papers, perhaps from a more or less sound standpoint, always bring in our high protective tariff. This from the London paper is therefore interesting from two view points:

"The truth is that owing to protection the American cotton trade is, in spite of the cotton being grown "on the premises," and in spite of the mechanical enterprise of the employers, an extremely poor and sickly plant. Its external trade is trifling; its manufactures are of the coarsest type, and in spite of its advantages and its high tariffs, it cannot keep out the fine goods of Lancashire, which, as we have shown more than once, are finding a large and increasing market in the States."

Did you ask what we should call the people of Panama. After some of those Panamanians divide up that $10,000,000 canal graft they will attend to the matter of "calling" each other when the pot looks hefty.

CURRENT COMMENT.

—— There are two kinds of people in this world—those who do things and those who criticize those who do things. The latter, in order to cut any figure at all, are commonly forced to try to make up in noise what they lack in numbers, as may be seen in current discussions of the Panama business.—*Providence Journal.*

—— If Senator Hanna, however, is really cherishing a purpose to try for the nomination, he can undoubtedly exercise a most disturbing influence, even if he falls short of grasping the prize. He is a favorite with an element of the Republicans which had to accept Mr. Roosevelt in 1900, and which simply accepts him now, supporting him only because he is in office.—*Boston Transcript.*

—— With the possible exception of Senator Tillman of South Carolina, there is no one in either house of Congress who can compare for a moment with Senator Carmack of Tennessee as a master of elegant blackguardism in the guise of oratory. There is more finish to Carmack than there is to Tillman, but the foundation stone of pure blackguardism is to be found under the style of both.—*N. Y. Commercial Advertiser.*

—— To one argument there is no answer. The treaty is made necessary by the Platt amendment which was adopted, under our insistence, by the Cuban constitutional convention. It is too late now to discuss the wisdom or the policy of that amendment. It is a fact accomplished, and it limited the power of Cuba to enter into commercial treaties with other countries than the United States. We can hardly forbid her to do that and refuse to make this commercial treaty which gives her access to the world's trade through the United States.—*San Francisco Call.*

—— America, the classic land of patent medicines, is also the happy hunting ground of the mind cure. America, the great exponent of unresting, unthinking hustle, is also the great world prey of those oriental systems which neglect matter, and which retire into the recesses of the spirit. Are not these things consequences as well as antitheses of each other? How thought cannot be despised or disregarded. It represents a revolt from materialism. It is sometimes funny with an exceedingly great funniness, but it is always a startling indication of the lengths to which our present materialism will drive the revolted soul. —*Chicago Tribune.*

—— The Atlanta dinner at which Governor Terrell, the two Howells, father and son, and the Hon. John Temple Graves, all exemplars of the loquacious life, were gagged by a promise, secured when the invitation was extended, not to speak, was a cruel affair. One might as well expect a warhorse not to neigh at the scent of battle as these tongues to keep their sheaths when the worldly warfare commenced about them. How the quartette must have suffered! What effort must it have taken to keep the larnyx still! Yet Atlanta is hardly to be blamed for resorting to such an extreme. It was the only way. There are other communities, similarly infested by the brood of hair trigger talkers, who will feel the tug of temptation to imitate.—*New York Commercial Advertiser.*

Marriage in Algeria.

The farther south one travels the earlier one finds boys and girls arrive at marriageable age. Some time ago a census was taken in Algeria, and then it was found that the youngest married "man" was twelve years old and that many lads of thirteen had several wives. A divorced husband of fifteen and a widower of the same age were also discovered. As might be expected, the girls are even more precocious than the boys, and, though twelve is the usual age, many are married at eleven. There were found to be 189 widows of fifteen and no fewer than 1,176 divorced wives of the same age.

A Vigorous Retort.

Lord Erskine, the famous English lawyer, once met a ruffian driver who was belaboring his horse, a miserable, bare boned creature, and Lord Erskine, who was intensely fond of animals, remonstrated. "Why," said the fellow, "it's my own; mayn't I use it as I please?" at the same time applying the cudgel. Erskine, irritated, sharply whacked the offender with his stick, and upon the ruffian protesting vigorously his lordship replied, "Why, it [the stick] is my own; mayn't I use it as I please?"

Breaking.

Once on a time three men broke a horse.

"My day will come!" thought the horse after submitting to a great variety of indignities.

In due time, then, the horse craftily showed a burst of speed and was entered in some races.

"It is my day!" chuckled he and broke twenty men the first heat.

It is a long lane that his no turning. —Puck.

— One of the porters of Clegg's Hotel, at Greensboro, had occasion to go up stairs late Thursday afternoon, and noticed that two white men who had taken dinner at the hotel were moving around rather suspiciously. Unknown to them, he watched and found that they were robbing the rooms right and left, taking from the dressers any portable article of value they could make way with. Before he could give the alarm the men had completed their robberies and walked down stairs. One ot the men was arrested at the hotel before any of the stolen articles could be disposed of. The other was arrested an hour afterwards with stolen goods on his person. Both men refused to give their names. One of them registered at Cleggs as T. H. Williamson, of High Point.

— Charlotte *Observer*: Up to this time Mr. Roosevelt clearly has the call on the Republican nomination next year, but there is undoubtedly considerable opposition to him in his own party, and surface indications are that it is increasing. The efforts of Senator Hanna to prevent his friends pushing him for the presidency have not wholly availed, and it is alleged that a good deal of Hanna literature is being circulated throughout the country. At a meeting of a Republican club in Cleveland, O., Tuesday night, one of the speakers said the presidential atmosphere was not clear and that Roosevelt was not the choice of a good part of the country. The same idea was expressed by other speakers, and when Attorney General Emerson was called on for a speech, "Why beat about the bush," said he, "and make out those veiled suggestions? Why not come out squarely and say what you mean? I tell you, gentlemen, that Hanna is the choice of the majority of the people for President." The audience yelled uproariously—the speaker had struck a popular chord. "The financial interests and the South," he continued, "are for Hanna. They will control the convention, and they cannot be headed off from their purpose to nominate Hanna."

FALL COLDS.

DANGEROUS BECAUSE HARD TO CURE.

An Offer to the People of Wilmington from Our Well Known Druggist, Robt. R. Bellamy.

Our well known druggist, Robt. R. Bellamy, claims he has a cure for colds and coughs, and if it fails he will refund your money. The remedy is Vinol, and we have heard such wonderful results from it that we advise every person in Wilmington who is suffering from a cold or cough to try it on his guarantee.

A hard cold and hacking cough may be the means of undermining your constitution and terminate in consumption. Cough Syrups, while they temporarily allay the spasms of coughing, owing to the opiates they contain, upset the stomach and do not cure the cause; old-fashioned cod liver oil and emulsions are so nauseating that few can take them.

Vinol is delicious to take, and contains all the active curative principles of cod liver oil in a highly concentrated form, and it is, therefore, the greatest specific known, for coughs, colds and bronchial troubles.

You would not eat an egg, shell and all. For the same reason you should not take old-fashioned cod liver oil or emulsions, just to get the medicinal curative elements which they contain.

The Vinol manufacturers separate them for you, throw away the useless oil and give you in a delicious, concentrated form all the healing and life giving elements which are to be found in fresh cods' livers. That is what gives Vinol its wonderful power to cure Coughs, Colds and all throat and lung troubles and makes it the greatest tonic reconstructor known to medicine. Robt. R. Bellamy, Druggist.

FUTURE LOOKED DARK.

H. W. Bagg, the Wilmington Manufacturer, saw little in it but pain.

The following story is a personal narrative of an experience that seemed to promise the narrator nothing for the future but a life of pain and discomfort. How he found the way but is a story which will interest many Wilmington readers.

H. W. Bagg, merchant and furniture manufacturer, of Second and Market streets, residing at 114 North Sixth street, says: "I used Doan's Kidney Pills and they proved to be a grand medicine, and I can also say that Doan's Ointment is the best remedy of the kind on the face of the earth. I suffered with my back for a long time. When I sat at my desk for a while and attempted to get up I would have to catch hold of the chair for support and straighten myself up gradually. The kidney secretions were dark colored and full of sediment. I read about Doan's Kidney Pills in our papers and went to R. R. Bellamy's drug store and got a box. Since using them my back is strong and I can move about and stand up as straight as ever and the kidney secretions have all cleared up. You may use my name as an endorser of the claims made for Doan's Kidney Pills and also Doan's Ointment which I used with good results."

For sale by all dealers. Price, 50 cents a box. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

FOREIGN FACTS.

Glasgow corporation has refused to allow blind men to travel free on the municipal tramway cars.

Certain suspected cereals that were examined in Paris some time ago were found to contain 40 per cent of fine sawdust.

Greece is going to count its population next October. At the last census, in 1896, there were 1,266,816 males and 1,166,990 females.

Preparations are being made for taking a census of the Transvaal at the end of the year in connection with a census scheme for the whole of South Africa.

In commemoration of the Thirty Years' war the battle field of Lutzen, where King Gustav Adolf of Sweden met his death, is to be turned into a public park.

The sterilization of meat is much practiced in Belgium. It returns to the trade, under the form of a wholesome product, meat which otherwise would be unfit for consumption.

The mixing of aqua fortis, which costs but a few cents a quart, with essence of lemon has reduced the price of the essence in Italy to 23 cents per pound, while the pure essence is worth four or five times that much.

Sweden's success in dealing with the problem of temperance is attested by the fact that the consumption of liquors is now only four quarts per head per annum, or one-sixth of what it was in 1830, whereas in Germany it is 11.2 quarts per head.

MODES OF THE MOMENT.

Entire hats of chiffon or malines in white, cream and colors will be worn again.

The white castor glove will be worn with duck, pique and other utility day gowns.

The corselet skirt is still used extensively for traveling, outing and beach costumes.

The hats from Paris are bright and gay in effect. They are of silk straw, as light as it is possible to make them, lustrous and gracefully braided or plaited.

Beautiful rose tints, shading from cameo, seashell and tea rose to damask, orchid and geranium, appear among the importations for summer evening dress.

The new grenadines are more like nets than anything else, they are so silky and transparent. They are striped and barred to give them body, and the most expensive weaves are in broche effects.

The stiff dead white piques of other days are replaced each season by improved grades and colorings. This year many of their surfaces are glossed, so that they look like bengaline silks.—New York Post.

HORSES AND HORSEMEN.

Two hundred additional stalls are to be built at Windsor, Ont., before the season opens.

Will Bray, Sheldon, Ia., has sold the bay stallion Little King (Baby King), 2:16¾, by King of the West, to Frank Wirick, Sioux City, Ia.

The little mare Vanzandt, 2:12, who showed up so well last fall, after several years' retirement, will be prepared at Poughkeepsie, N. Y.

W. L. Snow is trying to mend the manners of the swift but uncertain pacing mare Donna McGregor, 2:11½, and is entering her on the grand circuit.

George Saunders, who wintered in Georgia, is home at Glenville, O., getting ready for the campaign. He will race Greenline, 2:07¾, on the grand circuit again.

There is a two-year-old colt in Kentucky by the dead yearling champion Adbell, 2:23, out of Bonna Allerton, 2:19¼, that is said to have trotted a quarter as a yearling in thirty-nine seconds.

WOMEN'S WORK.

The women of New South Wales, Australia, are using their new political power to fight the sweating system and child labor.

Holland has a national council of women which is undertaking the pensioning of domestic servants, shop-girls and teachers by a system of old age insurance.

Bulgaria has a federation of thirty-seven women's clubs which has just issued an appeal for justice in Macedonia and the carrying out of the treaty rights of the people.

Argentina has a national council of women. There is need of it. Although women are in the majority as teachers and even serve as college professors, they are not legal witnesses in all cases, nor can a woman serve as a guardian unless she be a grandmother who has remained a widow.

ORCHARD AND GARDEN.

Of all fruit trees the cherry requires the least pruning.

Very slender trees often need a stake when first set out.

The best time to take rose cuttings is just after flowering.

Low branched trees are necessary for the production of choice fruits.

All things considered, the best time to set out strawberries is in the spring.

Young rosebushes should not be allowed to bloom. Rather give them the whole of the first season for growth.

In soils adapted to grape culture proper pruning and thorough cultivation are of much more importance than enriching the soil.

The objection to large trees for transplanting is that they must be taken up without losing too much of the roots, which causes a check in growth.

Sobered Him.

"You seem none the worse for your dissipation last night," said the man who had responded to one of the toasts at the banquet.

"No," replied the other, "I stopped drinking just in time, thanks to you."

"Thanks to me?"

"Yes. When you started speaking I caught myself laughing at your stories, so I thought it was time to stop."—Philadelphia Press.

Crabs and Earthquakes.

For some time previous to the day upon which the great Chilean earthquake of August, 1857, occurred great swarms of crabs of an unknown variety were seen in the bay of Payta. They all appeared to be greatly excited and were literally climbing over each other in their efforts to escape the impending calamity.

How they knew that the earthquake was collecting its strength to desolate the coast is more than man can say, but that they knew something unusual was about to happen there is no doubt whatever.

That there were millions of them may be inferred from the report of Dr. Forbes, who says that "ten days after the earthquake the dead crabs were thrown upon the beach in a wall-like line three or four feet wide along the whole extent of the bay."

PLAYS AND PLAYERS.

John Drew's pictures are as popular as ever with the matinee girl.

Alfred Aarons' latest venture, "The Knickerbocker Girl," has scored a big success.

E. H. Sothern's entire season next year will be taken up between New York and London.

M. Antoine has procured the French right of Tolstoi's new play, somewhat startlingly called "The Corpse."

Clyde Fitch has contracted to write no less than five plays for next season, and there will probably be more coming.

Robert Edeson has accepted a new play, as yet unnamed, by Charles Bradley, business manager of the Bostonians.

James K. Hackett has bought the dramatic rights of Frederic Remington's story, "John Ermine of the Yellowstone."

Paula Edwardes has been added to the list of stars who will be under the management of Messrs. Sam S. and Lee Schubert next season.

RADIUM.

Glass vessels in which radium has been washed acquire its power of emitting rays.

A bit of radium as big as a grain of sand sends out enough rays to blister the skin.

Radium has been known to give out heat for a year or two with no perceptible diminution. Nobody knows whether this process can be kept up indefinitely or not.

A ton of radium, according to Sir William Crookes, might be worth the whole national debt of Great Britain, not allowing for any further decline in the price of consols.

Sir William Crookes still believes that the amount of energy in the universe is a constant quantity, and he thinks that in some way not yet explained the radium replenishes its energy from the movements of the molecules of air surrounding it.

EDITORIAL FLINGS.

The chauffeur who kills and runs away will live to kill another day.—Houston Chronicle.

If other people wouldn't burn so much money, Mr. Rockefeller wouldn't have so much to burn.—Detroit Tribune.

It's a very poor rooter who cannot pick out the winning club even this early in the season.—Richmond Times-Dispatch.

President Roosevelt was probably "not thinking" when he let an old bachelor into the cabinet.—St. Louis Post-Dispatch.

Patti will receive $156 a minute for her concert appearances in America. She has no need to utter counterfeit notes.—Philadelphia North American.

Disastrous Wrecks.

Carelessness is responsible for many a railway wreck, and the same causes are making human wrecks of sufferers from Throat and Lung troubles. But since the advent of Dr. King's New Discovery for Consumption, Coughs and Colds, even the worst cases can be cured, and hopeless resignation is no longer necessary. Mrs. Lois Cragg, of Dorchester, Mass., is one of many whose life was saved by Dr. King's New Discovery. This great remedy is guaranteed for all Throat and Lung diseases by R. R. BELLAMY, druggist. Price 50 cents and $1.00. Trial bottles free.

Botanic Blood Balm (B.B.B.) has cured to stay cured more cases of Catarrh than all other remedies combined. B.B.B. kills or destroys the awful catarrhal poison in the blood which causes the symptoms, and thus makes a perfect lasting cure of the worst old cases.

SYMPTOMS.

The poison in the blood produces bad, offensive, fetid breath, bad teeth, and sickness of the stomach; in some cases vomiting up clear phlegm: enlargement of the soft bones of the nose, affecting sense of smell, ulcerations of the mucous membranes, hawking, spitting up lumps, weak stomach, nose bleeding, headaches, snoring while asleep, stopping up of the nose; thin, hot blood, all run down, specks flying before the eyes, low spirited, etc. Botanic Blood Balm (B.B.B.) forces its way through every blood vessel and vein, expelling all catarrhal poison that stands in its way, permanently removes every symptom and thus makes a perfect cure. B.B.B. sends a flood of rich, pure blood direct to the affected parts, giving warmth and strength just where it is needed.

Deafness, Ringing in the Ears, Head Noises.

Nearly all cases of Deafness are caused by Catarrhal Poison in the blood. The air passages become clogged by catarrhal deposits stopping the action of the vibratory bones. Thousands of sufferers from even total deafness have had their hearing permanently restored by taking B.B.B. for catarrh. B.B.B. gradually removes the catarrhal deposit from the air passages, thus making the nerves of the ear respond to the slightest sound. Ringing in the ears is one of the symptoms of approaching deafness and catarrh. B.B.B. never fails to remove ringing in the ears or head noises in a few weeks' time. If deaf or hard of hearing try Botanic Blood Balm (B.B.B.). It may be the very remedy your system needs.

OUR GUARANTEE.

Take a large bottle of Botanic Blood Balm (B.B.B.) as directed on label, and when the right quantity is taken a cure is certain and lasting. If not cured your money will promptly be refunded without argument.

Dr. Walter A. Taylor, Atlanta, Ga.

Dear Sir: This is the first certificate that I have ever given as to the merits of any medicine, but I take pleasure in recommending Dr. Biggers' Huckleberry Cordial. I consider it the best remedy that I have ever used in my family for Stomach and Bowel Troubles. 50c invested in a bottle of this medicine to be used in the beginning of any stomach trouble will often save life as well as a large doctor's bill. I have a friend whose life was, in my opinion, saved by the prompt use of Dr. Biggers' Huckleberry Cordial. For sale by all Druggists, 25 and 50c per bottle.

We Offer $1,000

For a Disease Germ That Liquozone Can't Kill.

On every bottle of Liquozone we publish an offer of $1,000 for a germ that it cannot kill. We do that to convince you that liquid oxygen does kill germs.

Any drug that kills germs is a poison to you and it cannot be taken internally. Liquozone alone can kill germs in the body without killing the tissues, too. It is the only way known—the only way one can conceive of—to destroy the cause of any germ disease.

Kills With Oxygen.

Liquozone is simply liquid oxygen—no drugs, no alcohol in it. It is the discovery of Pauli, the great German chemist, who spent 20 years on it. His object was to get such an excess of oxygen in staple form into the blood that no germ could live in any membrane or tissue.

Oxygen is life to an animal—the very source of vitality. It is the essential part of air. Its effects are exhilarating, purifying. It is Nature's greatest tonic. But germs are vegetables, and this excess of oxygen—the very life of an animal—is deadly to vegetable matter. Liquozone charges the blood with such an excess of oxygen that no germ can live where that blood goes. We spend 14 days in making each bottle.

We Paid $100,000

for the American rights to Liquozone—the highest price ever paid for similar rights on any scientific discovery. Before making the purchase we tested the product for years through physicians in the most difficult germ diseases. We proved that Liquozone does what nothing else in the world can accomplish, and that the results are unvarying.

A discovery that could command such a price is something you should know, if you need it. We are doing our part by supplying the first bottle free. Will you do your part by requesting it?

Germ Diseases.

These are the known germ diseases. All that medicine can do for these troubles is to help Nature overcome the germs, and such results are indirect and uncertain. Liquozone kills the germs, wherever they are, and the results are inevitable. By destroying the cause of the trouble, it invariably ends the disease, and forever.

A Card of Thanks.

I desire to return my sincere thanks to the citizens of Wilmington, and the surrounding country, by whose patronge I have been enabled to reach that period in my business career, that enables me to offer the largest, finest, most artistic stock of Furniture, Crockery, Carpets, Mattings, Window Shades, and in fact, everything needed to furnish a house from Top to Bottom, in the largest and finest store north of Atlanta and south of Washington City. I shall pursue the same policy that has led me thus far in business, which is to consider quality first in buying, and price second, and to sell nothing but well made, and lasting furniture, at prices as low as is consistent with the cost of living. I consider my store and stock a credit, not only to the State of N. C., but to the entire South, and whether you want to buy, or not, I will be glad to have everyone who reads this to come and see what honest methods, and satisfied customers have brought me. Yours very truly,

...Y MORNING, NOVEMBER 29.

THE ARMY AND NAVY ON THE GRIDIRON.

As a Football Game a Dismal Failure, as a Society Function a Glorious Success—Score 40 to 5.

By Telegraph to the Morning Star.

PHILADELPHIA, Nov. 28.—In one of the most tiresome and uninteresting games ever witnessed on Franklin field, the West Point eleven to day defeated the Annapolis team by the score of 40 to 5. Two miserable fumbles in rapid succession gave the navy their only score. As a football game it was a dismal failure, but as a society function it was a glorious success. Seated in boxes around the field were Secretary Root, Secretary Moody, Lieutenant General S. A. B. Young, Major General and Mrs. Chaffee, Major General Brooke, General Miles, Major General Henry C. Corbin and many other persons prominent in army and navy circles.

The army occupied the south stand and the navy the north stand. Dur- intermission between the Secretary Root and General crossed the field to the navy d were given a warm reception delegates in the center section. vy won the toss and chose the west goal with a slight wind at their backs. In less than ten minutes play they had scored their only points. Graves kicked to the navy's 15-yard line and Howard returned the punt. A fumble gave the navy the ball on the army's 45-yard line. After two attempts to gain through the West Point line, Howard kicked to the army's 15-yard line. On the first play there was another fumble in the army line and Strassburger fell on the ball. Chambers was then called upon to try a goal from placement for the navy. It was a very difficult angle, but the ball sailed straight between the posts and the cheering section of the navy stand simply went wild. Caps, canes, megaphones and almost everything movable within reach was thrown in the air, while on the opposite side of the field the army boys were very quiet. Their gloom was soon dispelled, however, for within a few minutes the army had crossed the navy's goal line. On an exchange of kicks, West Point secured the ball on the navy's 30-yard line on a fumble.

The heavy West Pointers then tore big holes in the Annapolis line and soon pushed Hall over for a touch down. Graves kicked the goal. Three minutes later West Point again got the ball on the navy's 8-yard line on a fumble by Strassburger. Davis was snowed over for the second touchdown and Thompson kicked goal. There were several exchanges of kicks and West Point secured the ball on the navy's fifty yard mark. On the next play Prince broke through the Annapolis line and by beautiful dodging scored a third touch down. Doe kicked the goal and the half ended a moment later.

In the second half the army went through the lighter line of the navy almost at will. In every scrimmage there was some Annapolis man laid out and Capt. Soul and Left Guard Chambers were so badly injured that they had to be carried from the field.

A few minutes before time was called, Doe dropped a pretty goal from placement.

Summary: Touch-down Hill, 2, Davis, Prince 3. Goals, Graves, Thompson, Doe 2. Hackett. Goals from placement, Chambers, Doe.

Newly Chartered Corporation Presents Another Proposition for Its Lease.

[*Special Star Telegram.*]

RALEIGH, N. C., Nov. 28.—The Atlantic Railroad Company to-day elected W. W. Mills, of Raleigh, president, and H. L. Finlayson, secretary. It submitted a proposition to Governor Aycock to lease the A. & N. C. railroad for fifty years, on the following terms:

"The Atlantic Railway Company will pay an annual rental of 2 per cent. on the capital stock of the Atlantic & North Carolina for ten years; 3 per cent. for twenty years, and 4 per cent. for the remaining twenty years; in addition thereto it will pay interest on existing bonded indebtedness, amounting to $325,000, and all taxes and assessments.

"Or the Atlantic Company will pay an annual rental of 3 per cent. upon the capital stock of the A. & N. C. for fourteen years; 3½ per cent. for twenty years, and 4½ per cent. for the remaining sixteen years. The Atlantic & North Carolina Company alone to be responsible for and pay the interest upon its present bonded indebtedness; the Atlantic Railroad Company to pay taxes and assessments.

"The Atlantic Company, as a part of the consideration of the lease, guarantees to build at least fifty miles of road, running westwardly in the direction from Goldsboro, within five years. The Atlantic Company assumes payment of all present floating indebtedness of the Atlantic & North Carolina, and agrees to pay a reasonable sum for maintainance of its organization."

...ch to the Morning Star.

..., FLA., Nov. 28.—The ... with all the lumber ... mill yard, one of the Seaboard ... Line warehouses, two box cars and a lot of lumber belonging to the traction company, were burned here early to-night. A great deal of the track in the railroad yard was ruined. The damage is estimated at $50,000. The property burned was only partially insured. At one time it looked as if the entire water front with shipping would be destroyed. There was a large quantity of lumber and naval stores on the wharves, and had the fire not been stopped before reaching them nothing could haved the business part of the city.

GENERAL REYES IN WASHINGTON.

Colombian Envoy Brings Special Proposition for Consieeration of Washington Officials.

WANTS THE CANAL NOW.

Indignation Intense in Colombia Over Events in Isthmus—Can Put Down Rebellion If Not Not Interfered With from the Outside.

By Telegraph to the Morning Star.

WASHINGTON, Nov. 28.—That the republic of Colombia will grant to the United States all the concessions provided for in the Hay-Herran treaty, but absolutely free of cost, is the proposition which General Raffel Reyes, envoy of Columbia to the United States on a special mission, brings for the consideration of the officials of Washington.

Gen. Reyes, who arrived to-day, talked with a representative of the Associated Press about his mission to Washington. He said:

"You will readily admit the propriety of my refraining from discussing my mission, which is of a confidential character, but of the offers which Columbia is ready to make, I desire to say that my energies and those of my followers will be devoted to the granting of the canal concessions to the United States without the payment of a cent. Even at this Colombia will be the gainer."

"Are you authorized by President Marroquin to make this offer to the Washington government?" General Reyes was asked.

"That would be divulging my instructions before I have executed them. I cannot say more about this now," he replied.

"You can further say," continued the general, "that all Colombia is a fire with zeal for the building of the canal by the United States and that the unfortunate political troubles which were the sole cause of the treaty's death before the Colombian Congress have entirely disappeared. We want the canal and I have come to Washington to see what the people of the United States are prepared to accept. I come with instructions from the President of Colombia direct.

"What is the feeling in Colombia about the Panama revolution? General Reyes was asked. "Feeling is running high and there is indignation over the events on the isthmus. We can and will put down tha rebellion if not interferred with from the outside. So intense is the feeling and so national the spirit of determination to bring the isthmus back into the republic that President Marroquin will have no trouble in raising an army twice the size necessary to put down the disturbance. Such an army can march overland to the isthmus, the opinion of ill advised persons to the contrary notwithstanding."

"What can the United States do, now that a treaty has been signed by Secretary Hay and M. Bunau-Varilla?"

"That treaty has not been ratified. The Colombian government does not ask the United States to aid it in putting down the revolution on the isthmus. All we ask is to be allowed to conduct our own affairs free from outside interference. TTe Columbian government can put down the revolution without violating a letter of the treaty of 1846—I refer to the treaty that we always have respected and adhered to, and not to the treaty as interpreted in these later days. If the United States maintains a neutral position the revolution will be put down."

FIRST IN ITS HISTORY.

Negro Lynched in Dorchester County, South Carolina.

By Telegraph to the Morning Star.

CHARLESTON, S. C., Nov. 28.—This morning the first lynching in the history of Dorchester county took place. Last night a negro named John Fagle, about 30 years old, attempted to criminally assault a young lady at her home near Ross' station, on the Southern Railway, 37 miles from Charleston. He immediately fled to the swamps. Bloodhounds were procured from Charleston and were soon on the trail of the negro who was eventually discovered and captured by the mob before the sheriff could interfere. Fagle was carried before his victim and identified. He was then strung up to a tree limb and his body riddled with bullets.

FELL DEAD IN CHURCH.

Jesse Parker, a Wealthy Resident of Potecasi, North Carolina.

By Telegraph to the Morning Star.

NORFOLK, VA., Nov. 28.—Having just finished an eloquent discourse upon the goodness of God in the Baptist church of Potecasi, N. C., Thanksgiving night, Jesse Parker, a wealthy Carolinian, fell to the floor and expired in a few moments. The tragedy broke up a largely attended meeting of people held to give thanksgiving for the crops of the fall. Mr. Parker was 76 years old and it is thought he was overcome by emotion.

FAMOUS KISSING SUIT.

The Plaintiff Accorded $2.37 a Kiss for 1,400 Kisses.

By Telegraph to the Morning Star.

ALBANY, N. Y., Nov. 28.—Notice of appeal to the Court of Appeals has been filed in the breach of promise case of Miss Frances Pettit against James P. Tittemoore, of Saratoga county.

This is the famous kissing suit where the plaintiff testified that the defendant has kissed her more than 1,400 times and was awarded a judgment at the rate of about $2.37 per kiss. She has been unable to collect the judgement, the defendant having gone into bankruptcy. Since the suit the defendant is said to have married another woman.

OBERLIN M. CARTER FREE ONCE MORE.

Refused to be Interviewed—Will Seek to Vindicate Himself Before the American People.

By Telegraph to the Morning Star.

LEAVENWORTH, KAS., Nov. 28.—A few minutes before 4 o'clock this morning Oberlin M. Carter, ex-captain of engineers, walked out of the Federal prison at Fort Leavenworth, a free man. At the gates he was met by his uncle, L. D. Carter, and immediately driven in a hack to the union depot in this city. This last movement was a ruse to throw the newspaper men, whom he wished above all things to avoid, off the track. At the union station he was met by a representative of the Associated Press and while Carter still staunchly refused to be interviewed as to his plans for the future he said:

"I will catch the Missouri Pacific train out of here at 5.14 o'clock to Kansas City and there after breakfast will take the fast Santa Fe direct to Chicago. I wish to spend Sunday with my mother, who is over anxious to see me."

While awaiting his train, the ex-army officer conversed freely on a large number of subjects, but always skillfully avoided the introduction of any thing in regard to his conviction or his plans for the futnre. He spoke at length about the prison, but even then turned the talk from himself to generalities.

In regard to himself he merely said: "I am feeling as well as could be expected under the circumstances. Deprived to the extent I was of exercise, I could not hope to be better situated." The captain looked much older than when he entered the prison nearly four years ago, but showed no trace of ill health.

It was thought last night that an officer of the Department of Justice might be at the prison gates to rearrest Carter on an old indictment, but such was not the case. When he decided to leave the gates were thrown open to him, and he passed out of the prison walls for the first time since he was brought into court here during his attempt to obtain a release by an act of habeas corpus. He was attired just as he was on his arrival at the place of his incarceration.

KANSAS CITY, MO., Nov. 28.—The train bearing Oberlin M. Carter arrived in Kansas City at 6:30 this morning. The ex-officer and his little party immediately transferred to the regular east bound Santa Fe train which started for Chicago at 7:35. But little attention was paid to the party, which made every effort to avoid notice. Breakfast was eaten on the train after it left Kansas City. The train is due in Chicago at 8:35 to-night.

During his short stop here, ex-Captain Carter talked interestingly.

"As to my future," said Captain Carter, "I really have no plans. I must wait first to vindicate myself before the American people."

THE FISHBLATE CLOTHING COMPANY.

Judge Purnell Dismisses Petition to Declare the Corporation Bankrupt.

[*Special Star Telegram.*]

RALEIGH, N. C., Nov. 28.—Judge Purnell to-day dismissed, at the cost of petitioning creditors, the petition of the International Shirt and Collar Company and others for the Fishblate Clothing Company, of Wilmington, to be declared a bankrupt. The Judge declares the International Shirt and Collar Company has not a provable claim, having received just payment within the time limit and not voluntarily surrendered. Also, that creditors in the amount required by the act are not united in instituting the petition. The order says further that the court must act on the record and nothing in the petition is presented asking leave to amend the original petition to conform to the law; that the court cannot try hypothetical cases. "This is not a moot court, but sits under the law to try bona fide causes actually existing and regularly instituted between parties to questions raised and presented in the court," says the judge, "a seeming effort on the part of petitioning creditors to fish out an opinion upon a hypothetical case cannot avail."

ROBESON'S JAIL QUESTION.

Hearing Before Judge Bryan in Fayetteville Yesterday—To Supreme Court.

Yesterday's Fayetteville *Observer*:

"There are a number of prominent people from Robeson county in the city to day, to attend the hearing, before Judge Bryan, of the action for an injunction, brought by Messrs. W. F. Williams and R. B. Branch, of Red Springs township, against the Board of Commissioners of Robeson county, to restrain them from building an addition to the county jail at Lumberton. After hearing all the evidence, the Judge dismissed the case, at the cost of the plaintiffs, who thereupon took an appeal to the Supreme Court.

"Messrs. N. A. Sinclair and Robinson & Shaw appeared for the plaintiffs, and Messrs. McIntyre & Lawrence and A. W. McLean, of Lumberton, appeared for the Commissioners. This case has been agitating Robeson county for the past year."

FIRE IN NEW ORLEANS.

The Plant of the National Biscuit Company Destroyed.

By Telegraph to the Morning Star.

NEW ORLEANS, Nov. 28.—Fire in the heart of the business manufacturing district to-day completely destroyed the plant of the National Biscuit Company at South Peters and Howard avenue and damaged considerably a number of surrounding warehouse and other property. The plant covered a square and there was an unusually heavy stock on hand. The loss to the Biscuit company and surrounding property is roughly estimated at between $200,000 and $225,000.

AFFECTING SCENE IN THE PRISON.

The Mother of One of the Young Chicago Bandits Visits Him in Jail.

WILL BE TRIED QUICKLY.

Five Indictments for Murder Were Found Against Van Dein, Four Against Neidermeier, Four Against Marx and One Again Roeski.

By Telegraph to the Morning Star.

CHICAGO, Nov. 28.—Indictments were voted by the grand jury to-day against Harvey Van Dein, Peter Neidermeier and Emil Roeski, the three young bandits who were arrested yesterday at the close of a spectacular man-hunt in Indiana. An indictment was also voted against Gustave Marx, who murdered Officer Quinn and was with the others in the majority of their crimes.

Against Van Dein indictments were voted charging him with complicity in five murders; against Neidermeier indictments in connection with four murders, and against Marx indictments for four murders. Roeski will stand trial for one murder.

No cognizance can be taken in Illinois of the murder of Brakeman L. J. Sovea in Indiana Friday, nor of the shooting of Detectives Driscoll and Zimmer in Indiana.

It is the intention of State's Attorney Deneen to bring the men to trial as quickly as possible.

VanDein's mother called on him at the police station to-day. The meeting was affecting.

"We've got mothers like other people, haven't we?" was what VanDein said to Neidermeier before Chief of Police O'Neill last night.

This morning VanDein's mother read the remark in a newspaper and wasted no time in going to see "her boy."

Mrs. Van Dein said: "You have sinned, Harvey, and you must suffer. But remember, you are not beyond redemption, and your mother is suffering with you."

For a few seconds the prisoner sat as if dazed. Then he caught sight of a smaller and more girlish figure standing beside his mother, and he arose and walked toward the door of his cell.

Mrs. Van Dein, speaking between her sobs, said, "Oh, my son! my son!" She put her arms through the bars and put her hands upon the prisoner's shoulders. Then Mamie Donne, Van Dein's sweetheart, stepped forward and shook hands with the prisoner.

At this point VanDein displayed his first sign of emotion. Tears appeared in his eyes and the girl was quick to see them.

"Please don't, Harvey," she said.

Mrs. Van Dein again put her arms through the bars toward her son. Inspector Lavin, who had been warned that an attempt might be made to pass firearms to the prisoner, caught the grief-stricken mother by the shoulders and gently drew her back. "We cannot allow you to touch the prisoner any more," said the inspector. At this point VanDein stepped close to the bars and with a scowl peered into the dimly lighted corridor at a dozen or more detectives and spectators who had been passed into the cell room.

Her sobs broke out anew and every one who was near was affected by the scene. Two young women who had been passed into the cell room with Mrs. VanDein and Miss Dunne began to sob and Inspector Lavin motioned that the interview must end.

"We will come again, Harvey," said Mrs. VanDein, as she left the cell room.

The prisoner did not answer his mother's farewell sentence. He stood leaning against the bars with his head sunk in his hands until the police began to question him, when he resumed his usual indifferent demeanor.

It was said at the police station that there is a strong possibility of what is known as a "scaffold marriage," the belief was expressed by the detectives who have worked with the case that Miss Dunne is willing and anxious to marry VanDein before he stands trial for the series of crimes in which he has participated.

MINSTRELS IN FAYETTEVILLE.

Hollowbush and His Orchestra Gave Great Satisfaction Friday Night.

Messrs. C. W. Hollowbush, J. A. Fetile and other members of the orchestra who went to Fayetteville to assist in the minstrel show given there Friday night under the auspices of the volunteer firemen, returned last night, the matinee yesterday afternoon having been abandoned on account of the cold weather. The Fayetteville *Observer* yesterday afternoon says of the production:

"Every one who attended enjoyed the minstrels last night, given by local talent assisted by Mr. Hollowbush and his splendid band from Wilmington. The music was superb. They had a fairly good house considering the cold weather."

Bees and Death.

A correspondent of the Field of London states that three times within his experience have bees died within their hives on the death of their owners. It would be interesting to know if those bees were informed of the death, for it is a common superstition in rural parts that bees kept in a garden of a house where a death occurs if not informed of the event will either die or leave the hive. Hence the custom is still observed of making three taps on the hives with the door key, after which the bees are told of the sad event. A piece of black crape is then fixed to the hive or hives, and an offering of pounded funeral cake, soaked in wine, is placed at the entrance. Another common belief is that if bees when swarming settle on a hedge stake there is certain to be an almost immediate death in the family of their owner.

Growth of Nails.

The growth of nails is more rapid in children than in adults and slowest in the aged. It goes on more rapidly in summer than in winter, so that the same nail that is renewed in 132 days in winter requires only 116 in summer. The increase of the nails on the right hand is more rapid than on the left; it also differs for the different fingers, and in order corresponding with the length of the finger. It is most rapid for the middle finger, nearly equal for the two either side of this, slower for the little finger, and slowest for the thumb.
